

MR Resources Inc. and Scientific Magnetics Ltd. are delighted to announce the formation of MR Resources Europe bringing NMR system support, servicing and service contracts to European Varian, Agilent and Bruker users.

MR Resources Inc. the Fitchburg, Massachusetts based company providing NMR system sales, service, spares and repairs and Scientific Magnetics are delighted to announce the formation of a new collaboration, MR Resources Europe, based at the Scientific Magnetics facility in Abingdon, Oxfordshire. This new initiative will combine MR Resources unique NMR system capabilities with the extensive Scientific Magnetics experience in superconducting magnet manufacturing, quench recovery and repair.

MR Resources Europe are able to undertake the following services for Academic, Pharmaceutical, Contract Research and Industrial customers.

- Service contracts on all Varian, Agilent and Bruker NMR spectrometers.
- On demand service and spares for the above listed NMR systems
- Quench Recovery and Helium refill service for superconducting magnets.
- Relocation of complete NMR systems.
- Sale of fully warrantied refurbished NMR systems.
